GearTrends®: The Book is published three times a year by SNEWS LLC in the interest of the growth and development of the specialty outdoor, fitness and winter sports industries. The Book is a component of the GearTrends® Network, designed to "create community through communication" by encouraging participation from trade professionals and consumers. The GearTrends® information network strives to be the industry standard for late-breaking news, features and trend reporting, business education and company/product information. The GearTrends® Network also produces the GearTrends® website and Specialty News (SNEWS), the insider trade news source for the outdoor and fitness markets. Copyright ©2003 by SNEWS LLC. An exciting new fitness accessory, Buff® is designed as a magical piece of head or neckwear that can be worn as a headband, bandana, scrunchie, beanie, neck gaiter or wristband: it's truly multi-functional! Manufactured from a technical microfiber, Buff is breathable, wicks perspiration and is wind-resistant. The unique 'stitch-free' process makes it both extremely comfortable and durable. Also new to the collection this summer is the Visor® Buff® complete with neoprene peak! Available in a multitude of different designs, Buff is a uniquely functional garment designed to achieve a high level of performance WITH FUN!
